CHORUS

Do you know it, why it rain down here from above.....

Why do you worry yourself when you know sey it not at your fault.....

Do you know it, when your time ar gonna come on.....

Why do you worry when life ar always gonna go on.....

Jah Jah Lord let it rain on my floor..... Cause i've being sowing my seeds and nuturing dem for so long.....

We pray make it rain... On our crops.... Without no delay...so demma grow up faster lord.....

Seasons ar come

Seasons ar go on

Every little thing gat it time and season

Seasons come up

seasons are pass on

You have to make your hair

Take a look, make a move when the sun is shinning

Cause every little thing got it time and season

You have to make your hair now while the is shinning

Take a look at me as me i testify

Say i and i are supposed to be on this fight

While JahJah most high is going to be at we back

Your hands, my hands you know cant fight alone

To resolve the trouble in this world

We all need one love.

CHORUS

Do you know it, why it rain down here from above.....

Why do you worry yourself when you know sey it not at your fault.....

Do you know it, when your time ar gonna come on.....

Why do you worry when life ar always gonna go on.....

Do you know it why it Rain down here from Above.....

Why do you worry yourself when you know sey it not at your fault.....

Do you know it, when your time ar gonna come on....fi move on.....say hear

we pray make it rain..... Without no delay..... Here

Seasons ar come
Seasons ar go on
Every little thing gat it time and season
Seasons come up
seasons are pass on
You have to make your hair fast
Very soon the will start falling
Cause every little thing got it time and season
You have to sowe your seed before it start raining
Just like a farmer want to sowe a seed of corn
And Pray to JahJah most high to come water them Few months and later now is time to cut
them off....

Jah Jah Lord let it rain on my floor..... Cause i've being sowing my seeds and nuturing dem
for so long.....

CHORUS

Do you know it, why it rain down here from above.....
Why do you worry yourself when you know sey it not at your fault.....
Do you know it, when your time ar gonna come on.....
Why do you worry when life ar always gonna go on.....

Do you know it why it Rain down here from Above.....
Why do you worry yourself when you know sey it not at your fault.....
Do you know it, when your time ar gonna come on....fi move on.....say hear
we pray make it rain..... Without no delay..... Here
